AMERICAN

REMSLAVE MAN,

Incorporated by Act of the Legislature of the State of New York, and secured by Letters Patent under the

LAWS OF THE U. STATES, A. D. 1851.

CHAS. W. DENNISON & CO.

PROPRIETORS FOR THE STATE OF MAINE.

C. W. D. & CO are now prepared to manufacture and offer to the trade and consumers the Soaps of the American Cream Soap Co in all their varieties, at their Factory,

Nos. 31 & 33 UNION ST., For Land, Me.,

CONSISTING OF

American, Cream Soap in Bars, Laundry and Manufacturers' in Barrels and Cans, Toilet Shaving, Shaving Cream, Transparent, Cream Soap Preparation, &c., &c.

These Soaps are presented to the public, after having been thoroughly tested by ourselves and friends, as the best Labor Saving Articles ever discovered, and we offer them to the public as every way worthy of their confidence.

Family the work of the Laundry in a very short time, either Soft, Hard, or SALT; dispensing with Boiling or Pounding and the Washboard—consequently a large amount of Fuel and wear and tear of clothing is saved, and not one fourth the amount of Labor is required to do the washing of a family. The tendency of these Soaps is to soften the clothes and loosen the dirt of the dirt, without injury Washing is done by simply rubbing the Soaps in parts of clothes most soiled, and placing them in warm suds sufficient to cover them—they let them remain a few hours, (or all night if convenient,) then with a slight hand rubbing and good rinsing, they will be perfectly clean, and without injury to the most delicate fabric. Merinoes, Silks, Shawls, &c., may be washed with powerful safety Cotton Goods Prints of any color that will fade in water alone, when washed with these Soaps, according to the directions, will not change, but cream firm, and the colors rendered more brilliant. For washing Woollens, Prints, Gildings, Mirrors, Maps Paintings, Lamps, Silver Ware, &c., &c., these Soaps are superior to any in the market. The cost of these Soaps is no more than of those ordinarily used, and besides this, the great ease and ease of cleaning consequent upon the old method of hard rubbing upon a board, machine, pounding barrel, &c. &c., and the necessity of boiling, is wholly avoided

We ask for this Soap a fair trial, choosing to trust to its own merits rather than resort to the publication of long list of certificates from those who have used it wherever it has been manufactured, which we have in our power to do were it necessary

Boston, Jan 5, 1836.

Having had occasion to observe that some persons afflicted with hernia have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of the cases, I have taken pains to inform myself of the capabilities of Mr Foster, to whom the deficiency occasioned by the death of Mr Heath—After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and is genuine in accommodating to the variety of cases which occur I feel called upon to recommend him to my profession and brethren, and to the public as a person well fitted to supply their wants in regard to these important articles

WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

THIS valuable medicine which has received the sanction of the medical faculty by which it is particularly prescribed and which has been tried successfully by thousands of invalids, is one of the most powerfulable preparations ever offered to the public for the cure of

CONSUMPTION, SCROFULA, COUGHS COLDS, ASTHMA, BRONCHITES, SPITTING OF BLOOD, and ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumpt on and kindred diseases, yet disordered, while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing In cases where separation has taken place on the lungs this article has been found, by the most careful tests to supply the very ingredients necessary for the formation of cells, and the complete healing of this delicate part of the human system

This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste which renders it so repulsive, particularly to invalids.—The thorough incorporation of the Phosphate of Lime with the Oil heretofore accomplished by the adoption of the most perfect rules of chemistry and a medicine has thereby been produced which is of unestimable value in a climate like our own

A long array of certificates might be given here to prove the efficacious character of this medicine but it is entirely unnecessary The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence

Whig Congressional District Convention. Towns having 1000 inhabitants, and under, are entitled to two delegates over 1000 and under 2000 four over 2000 and under 3000 six over 3000 and under 8101, ten, and over 8100 fifteen. The census of 1850 to be taken to determine the number of inhabitants. Per order of the Committee.

July 13th.

The Reciprocity Treaty. This measure, before the U. S. Senate is likely to go by the board at the dictation of those who hold the whip of slavery

This treaty embraces provisions for the settlement of the fishery difficulties and its ratification would, as a whole, be of advantage to New England.

The people in the Provinces are desirous of cultivating a closer union with the people of the States Political notions and prejudices are giving place to commercial ideas and advantages The people of New Brunswick and Nova Scotia know very well that they cannot catch all the fish that are wanted—they have not the capital to undertake this, but doing what they can, they are benefitted in having the people of New England send their vessels upon the fishing grounds, employ the young men in their service and purchase of them their supplies In this way they find a good market for every bushel of potatoes, every pound of butter and gallon of milk, and whatever surplus of production they have to dispose of

The markets of New England are benefitted by the coal and the plaster and the grindstones that come from the Provinces, and in the selling in return our manufactures, cloths, implements and other productions.

The treaty furnishes a broad basis for these matters, and will, if ratified, settle the vexed fishery question, and save our people from all the annoyances growing out of that matter.

Why, then, should there be hesitancy or doubt about its ratification? Simply because the slave interest demands a clause authorizing the chasing of slaves into the Provinces and there capturing him and taking him back into the prison house of slavery To the insertion of such a clause, thanks be to God, the British Minister will not consent.

Thus the question is urging itself upon the people of the free States, whether, in fact, while the government has turned its face to the South to do the bidding of slavery, there is any North, any free States, any freemen.

RIVER AND HARBOR BILL. The following are the yeas and nays on its passage in the House

Yeas—Messrs. Ball Banks Benson Benton Bugg Carpenter Caruthers Chamberlain Chandler, Campbell, Cox, Crocker, Cumming, Cutting, Davis of R I Dawson Dick Disney Dunbar Eastman, Eddy, Edgerton Edmands Elliott of Mass Ellison, English, Ewing, Farley, Fenton, Flagler Florence Giddings, Goodrich, Greenwood Hamilton of Ohio, Harrison, Haven, [illegible]

Nays—Messrs. Abercrombie, Aiken Allen of Ill, Barry, Barksdale, Belcher Bocock, Boyce, Breckinridge, Bridges, Caskie Chrisman Clingman, Cobb, Craige, Davis of Ind. Dowdell, Edmundson Elliot of Ky Goode, Grow, Harris of Ala, Harris of Miss, Hastings, Hibbard, Hillyer, Houston Jones of N Y Jones of Tenn, Jones of La, Keitt Kidwell, Kittredge Kurtz Lamb Letcher Lilly, McNair McQueen, Maurice, Maxwell, May, Mayall, Millson, Murray, Olds, Oliver of N Y, Orr, Packer, Perkins of N Y, Perkins of La., Phelps of Mo., Phillips of Ala., Powell, Pratt, Puryear, Reese Rowe, Ruffin, Shelton Smith of Va., Smith of Ala., Stanton of Ky Stanton, Straub, Taylor of N Y, Vail, Walsh, Westbrook, White, Wright of Miss, Wright of Pa.

It will be seen by the above that Messrs Washburn, Farley and Benson, the three Whig Representatives from this State, voted yea, Mr Mayall voted nay, and Messrs. Fuller and McDonald were absent—not a Democratic vote for it

Judge Bronson, nominated for Governor by the 'Hards' of New York, declined on account of ill health, but the Convention refused to receive the declination It was resolved to run him any how The Convention, and the Judge likewise, endorse the Nebraska bill, so far as to declare that the question of slavery should be left to the decision of the inhabitants—thus supporting the repeal of the Missouri compromise We think it not improbable that the Pierce men of New York will fall in with the Hards upon this platform

An Anti Nebraska Congressional Convention for the Sixth District, is called at Columbus, on the 27th instant All voters in favor of repealing the bill which abrogates the Missouri Compromise are invited to send delegates.

The Whig District Convention meets in the same place, at the same time

PUBLIC SCHOOLS. The quiet examinations of the public schools which have been going on, during the week, under the direction of the Superintending School Committee, without public announcement, have been attended by parents and other friends of education, and have continued to verify the fact that the schools are in a flourishing condition and are making honorable progress.

The public schools of Bangor are among her richest treasures. They give the best assurance of her progress. They are honorable to the intelligence, liberality and far-sightedness of her citizens. They are the crown of glory to the city, and make the place one of desirable residence to those who have children to educate and to be fitted to go forth to the battle and the strife of life.

Our engagements would not admit of a general and a prolonged attendance at all the examinations, but the schools we visited, together with the testimony of those who had greater opportunities for observing, satisfy us that the teachers are faithful, and that the employment of a Superintendent has proved that the plan is no experiment of doubtful benefit, but a substantial and thorough improvement in our school-system, which neither teachers nor parents would willingly forego, and which results and will result more and more in a saving of expense

The change that has been wrought in our public schools, within a few years, in the style of reading is highly gratifying The readings now attractive and satisfactory.

Among the pleasant incidents of examination week, was a picnic of the two Cumberland-st. schools, held on Thursday afternoon, in Carr's Grove The company was large and animated, and yet orderly and discreet Native and foreign children mingled harmoniously together and their voices joined in singing many pleasant songs, and a oneness of spirit seemed to pervade all their hearts Several addresses were made to the pupils in group by gentlemen present, and the company partook of a fine repast prepared with much elegance.

Such incidents must throw a halo of delightful association around the school days of the young and bind still closer the golden chain of love between teachers and pupils. Ex E.

At the quicksilver mine of New Almaden in California, an average of eight hundred bottles, or 60,000 pounds of the metal, are taken out every week. This would amount to 1500 tons per year, worth at 75 cents a pound, two and a quarter millions of dollars Preparations are making for raising double this quantity The amount thus produced is more than is obtained from all the other quicksilver mines in the world—and would very greatly affect its value were there not a vastly increased demand for the article, to be used in the extraction of gold and silver from the ores.

Death at Hampden.

To the Editor of the Whig and Courier

On Wednesday forenoon Capt S. Garland, for several years a resident of this town, and an estimable citizen and good Christian, fell from Long wharf, known as Curtis & Co's, at Hampden Upper Corner, into the dock at the time of low water, and was instantly killed He was looking for a suitable place in which to moor his vessel at the next high water, to receive her complement of freight He was seen falling by a gentleman in Messrs Hinckley & Emery's ship yard, and several men rushed immediately to his aid, but only to learn that human aid was unavailing. He fell some 12 to 15 feet, striking upon his head, imbedding it completely, and probably in using the spine His funeral was attended yesterday, at one o clock.

HAMPDEN, July 14th. Com.

A STAMPEDE AMONG THE NEBRASKAITES.—Rev Mr Chickering, of the High St. Church alluded as we understand in a calm and dispassionate manner to the encroachments of the slave-power, and kindred topics, in a sermon delivered by him last Sabbath morning, whereupon some dignitaries and officials of his congregation became exceedingly mad, and they now threaten the annihilation of the Parish Congregationalist, Hon. Nathan Clifford, ex-Attorney General of the United States, actually left the church, put his hat on in a decidedly irreverent manner, and marched out of the house in a very undignified rout, slamming the door after him Nobody followed the ex Attorney,—ex-Commissioner to Mexico, and would-be U. S. States Senator but a boy, sometime afterward. We think this stampede—will not add materially the prospects of Nathan, hereafter. He should send up for the people of this State for an office.—Portland Temperance Journal.

HAYING. Do no drying work too long. By selecting a good light and there, or even a part of a field, that has come into a fit condition to be put out, you will gain in the excellence of the fodder, far more than the loss of cutting small parcels Do not make the hay too much in a bright, hot, July day, herds, grass of red top, but early in the morning, spread evenly, and frequently stirred, can be made sufficiently in one day, to keep sweet and perfectly well through the winter The juices are fairly burnt out of a great deal of hay, and it is carried to the barn so wiry and hard that the cattle eat the leaves and refuse the rest. A little salt may be added to hay with advantage.—N E Farmer.

N YORK, July 14 The Chief of Police arrested Mr Paul, the cashier of Belmont's banking house, last evening, when he confessed that he took the $14,000 from the safe on Wednesday night, and returned it as stated yesterday. Mr Paul having been one of the three persons to whom Mr Belmont confided his business it is presumed he will escape the clutches of the law. The confession is that he was driven to the commission of the act by reason of losses in some stock operations. His detection was entirely owing to an ingenious trick of Mr. Matsell.

Money was easier with merchants in New York yesterday P M, but more stringent with stock operators.—Boston Times.

THE POSITION OF EUROPEAN MATTERS. The Boston Journal gives details of the news by the steamer Asia, from which we extract the following

The interposition of an army of 200,000 men, by Austria, between Russia and Turkey, thus either covering the retreat of the former or the advance of the latter, together with the generally anticipated removal of the seat of war to the Crimea, has not only completely changed the aspect of the war, but the reasons actuating Austria do not appear to be understood, or, if comprehended, all information is studiously kept from the people The latest statement made on the subject was by Lord John Russell, in his place in Parliament, on the evening of Thursday, June 29th, when, in answer to a question for information, put by Lord Dudley Stuart, he made the following unsatisfactory reply.

"With regard to the first question of my noble friend—namely, whether any treaty or convention has been signed between Austria and the Porte with regard to the occupation of the Principalities by Austrian troops,' I may say that this government has received information that a convention has been signed between Austria and the Sublime Porte for the occupation of the Principalities by Austrian troops in either case, whether the Russians shall have voluntarily quitted the Principalities or not—[Hear! hear!] That is to say, that if Russia has voluntarily quitted the Principalities the Austrian troops will occupy them, and if Russia has not quitted them, the Austrians will enter the Principalities for the purpose of driving them out—[cheers]—that is the effect of the treaty. This government has not at present received an official copy of the convention which has been signed and I cannot, therefore, promise when it can be laid on the table With regard to the second question of the noble lord—namely, whether the intelligence which has been very freely circulated, that the Emperor of Russia has accepted the ultimatum of Austria, has been confirmed—and whether the movement of the Russian troops from the Danube, with a view to the evacuation of the Principalities was in consequence of an understanding come to between Austria and Russia? no official information has been received by us—The last time I saw the Austrian Minister, he informed me that no answer had reached Vienna and I cannot say what subsequent information has been received"

In answer to a question by Sir H Willoughby, whether this country (Great Britain) is any party to the convention which the noble Lord states has been entered into between Austria and the Porte? Lord John Russell curtly replied, "It is a convention between Austria and the Porte, and Great Britain is not a party to it"

In an article on the defeat of the Russians at Silistria, and the movement of Austria, the London Times says

"In pursuance of the treaty signed between Austria and the Porte on the 14th inst, there is now little doubt that the Austrian forces will enter the Principalities to re-establish the legal government of the country, which was overthrown by the Russian invasion Indeed we are informed by the Moniteur that Count Coronini will at once descend the Danube to Giurgevo with his division, under the authority of the Porte, and it is probable that a similar movement will be made on the frontier of Moldavia Should the Russian army have withdrawn altogether within its own territories abandoning the entire line of operations in both the Principalities the Austrians will hold temporary possession of the country for the Porte, in order to prevent a recurrence of the late disastrous invasion, and in that case, without declaring war, Austria would have succeeded in obtaining the principal and immediate object of her demands

As far as the defence of Turkey is concerned she would then be in a position to prevent even the possibility of a renewal of the attack in Europe, and so far the first condition of the protocols of Vienna would be attained But it remains to be seen what are the political intentions of Russia in submitting to make these strategical movements—whether they are designed to concentrate her powers of resistance and to prolong the war, or as a practical admission of the terms proposed before the war by the Vienna conference in the hope of dividing the councils of the Four Powers Nothing is, in reality, secured or effected, until Russia withdraws her unjust demands on Turkey and consents to a peace with that power which may deserve the confidence and approbation of Europe."

THE FRANKFORT HOMICIDE. A correspondent of the Rockland Gazette gives the following as the particulars of the recent affair at Frankfort.

Some twenty or twenty five years ago, Mr. Leeson was married to a Miss Hall, whose connexions are extensively and favorably known in Frankfort and its vicinity About the time of their marriage Leeson was engaged in trade and bid fair to acquire a competence, and become a useful member of society but in an evil hour fortune seemed to frown upon him, and report says he was obliged to transfer his property into the hands of his wife, who, being a smart, ambitious woman, commenced business for herself, and appeared to manage business to her own pleasure, while Leeson, disheartened by his failure in business, and perhaps by trouble in his family, little by little neglected his family and appeared to wander from store to store without any business or visible means of support. Leeson was somewhat addicted to drinking, but we do not know that he was in the habit of drinking to excess Whether his propensity to drink was created or entailed by family troubles or failure in business we do not know

About four years ago, Mr. and Mrs Leeson were divorced by the legal authorities upon the petition of Mrs. Leeson Sometime after the divorce was granted, Mrs Leeson was married to Dr. Thayer of Frankfort Mills. This marriage probably created bad feelings between Leeson and Thayer

Last Tuesday, Leeson was one of a company of fantastics, who in laughable style quietly paraded the different streets of the town, with horses, carriages and dresses of a comical nature.

About sunset as they were passing the house of Dr. Thayer, Mr Leeson's daughter called to her father, who we understand was acting the doctor, which Dr. Thayer thought to be an insult to him and went into the street (or yard) where Leeson was conversing with his daughter, knocked him from his horse and beat him in the most inhuman manner, breaking his thigh and jaw bones, and probably otherwise injuring him Leeson was taken to a house near at hand, and medical aid called, and every necessary attention bestowed upon him.

Officer Carleton was soon on the spot with the requisite documents, and arrested Dr Thayer for assault and battery

Next morning Dr Thayer was examined before R. A. Rich, Esq, and held to bail in the sum of $2,000. Leeson continued to fail until Thursday evening, when he died.

Upon the death of Leeson being known a large number of persons collected in the street about the house of Dr Thayer, and soon officer Carleton was again on the spot, and arrested Thayer for manslaughter, and now holds him in custody, waiting for an examination before the proper authorities

[Thayer was examined and bound over for trial.]

BURYING ALIVE. A paper was read before the French Academy of Science, in which the following extraordinary instance was adduced as a reason for abolishing the present custom of burying so soon after death:—

A young female had been twice pronounced dead when only in a trance, but had recovered in time to prevent being buried alive. A third trance came on, and in consequence of what had previously occurred, permission was obtained from the constitutional authorities for the body to remain above ground so long as decomposition should not take place A week—ten days passed away—there was still no decomposition, but all the medical men declared she was dead, and at length she was laid in her coffin Only a few minutes before the coffin was to be nailed down, and while the bell of the village was already tolling for the funeral, a female from an adjoining village, who had been a schoolmate of the supposed deceased, came to take a last farewell—She stooped to kiss the lips of her departed friend, and remained in that position for some time The bystanders attempted to remove her, lest her emotions should be injurious to her She waved them away with her hands, and remained in that position, with her lips upon those of her deceased friend, and breathing (as it turned out afterwards) the warm breath of life into her lungs. At length she exclaimed "She lives," and then rising from the body, she pointed out unequivocal signs of life She then stated that as she was kissing her friend she fancied she felt her breath, and in a few minutes was convinced of that fact—The female who was supposed to be dead, was taken out of the coffin and placed in a warm bed, and in the course of a few hours, fully revived She stated that she was, during her trance fully sensible of all that was passing around her, and she even heard the death bell toll, but was utterly incapable of speech or sign to show that she was not dead.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

We are without our usual telegraphic report this morning.

DR. ORDWAY'S
HUMOR DISCOVERY,
—AND—
BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends, and those who have tried it and know its efficacy, to put it within the reach of all.

He has now added to it an *Herb discovered in California*, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS, CHRONIC DISEASES, &c.

The virtues of this Herb were first made known to Dr Kelley by an Indian, while attending a patient sick with that terrible disease, the California Erysipelas and Liver Complaint.

The effect was miraculous, curing the man in a few days.

The natives, when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.

Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them.

Discovery of the California Herb.

About the first of March, in the year 1849, Dr. Keller sailed from Boston in the ship "Sweden" for California, and arrived at San Francisco in June following. He spent a considerable time in travelling the country and mining, but the greater portion of which was spent in the practice of his profession.

While he was practicing in the vicinity of the Trinam, between the north and south forks of the American river, he frequently noticed the Indians gathering an Herb, which they held in high estimation in curing diseases, bites of rattlesnakes, and rabid animals.

While discharging a miner for that terrible disease, the California Erysipelas and Liver Complaint, an Indian (whose life he had previously saved while in a quarrel with some miners) came with an Herb which he called "*Yerba-buena*," (which means all cure,) he told him to give the "*numbra*" [man]. The effect he found to be new and wonderful, curing the man in a few days.

He afterwards used the Herb on his partner, and found it to possess new and remarkable properties for all kinds of Humors, Liver Complaints, Dyspepsia, Rheumatism, Sores, Running Ulcers, Mercurial Diseases, Sick Headache, Kidney Complaints, and a great *Alterative and Purifier of the Blood.*

The above is in substance the discovery and medicinal properties of this useful Herb, as related by Dr. Kelley, on his return.

Upon trial, its virtues have been found to far exceed its reputation as the most valuable Medical Herb yet discovered.

Heave Mother's Voice from the Granite State.

DR. ORDWAY: Dear Sir—Since we have kept your Humor, for sale, we have used several bottles of your Blood Purifier in our family, and from the effects produced we believe it to be an invaluable medicine.

I am to mature first particulars what it has done to our little boy (who is now six years of age,) and who has been afflicted from his infancy, or nearly so, with a most distressing disease of which we were at a loss to know the name, called *Excoriation and Ulceration of the mouth.* Our boy ran last summer and fall he was very much afflicted with *Canker in the mouth and throat*, so much so that it was distressing to witness the intense suffering which he underwent during the coldest time. I did not know what course to pursue with him, but finally concluded to make a trial of your *Blood Purifier*, and commenced giving it to him about the first of December. I am happy to say that by taking one bottle and a half of your medicine, and his health, he improved every day, and after taking three bottles in succession, he (for the first time in his life) was entirely free from Canker, and has remained so until he was seized with Rubeola Morbilla in April, which left him with a severe cough, but was successful in relieving the same few weeks. In July he took cold and the cough came on again worse than before, he was confined with indisposition and loss of appetite and soon he was so emaciated that my friends were afraid he was going into a decline.

As soon as his cough was relieved, he commenced giving him the Purifier again to restore his health, and in a short time he began to gain fast. And by the blessings of Almighty God, he is now and has been for two months past the picture of health.

I am confidently recommend the Blood Purifier to all who are afflicted with as much as any man.

We have also in the use of the Purifier, a preventative after being cured how to prevent, and believe it to be the very best of Medicine in all such cases, for regulating the stomach, and removing all spotted matter from the system, and restoring health and vigor.

Signed) MRS. D. SANBORN.

Nothing lacks so much in addition to those who have been cured all the wonderful medicines of the day as that we can now see growing upon the pastures and along old stone walls, should cure every humor in the system we are now a free fact —

Upon these facts we start This is a simple and safe remedy, prepared from roots and herbs and made up in a safe and reliable form, so that we can safely recommend it to the afflicted with confidence
